News release: IMMEDIATE RELEASE

## **JPMORGAN CHASE OPENS HIRING FOR MORE THAN 100 NEW TECHNOLOGY JOBS AT SYRACUSE UNIVERSITY**

**New York, August 11, 2009 --** JPMorgan Chase announced today that it opened the application process for more than 100 new employees to join its team at the JPMorgan Chase Technology Center at Syracuse University. The company is hiring candidates with information technology experience at various levels.

“We are looking for qualified candidates to help JPMorgan Chase and Syracuse University build a nationally-distinct technology program in upstate New York,” said JPMorgan Chase Chief Administrative Officer Frank Bisignano. “This collaboration is creating real jobs and delivering long-term value to JPMorgan Chase, Syracuse University and the broader Syracuse community.”

“We are excited that our collaboration with JPMorgan Chase is bringing new jobs and new opportunity to Syracuse and Central New York,” said Syracuse University Chancellor and President Nancy Cantor. “Most critically, faculty and students from across our campus will have the unique opportunity to work side-by-side with these new employees, putting scholarship into action to solve real-world problems in global financial services technology.”

Employees will work on information technology and cyber security, risk analysis and application development for JPMorgan Chase and its lines of business, including Treasury and Securities Services and Asset Management. Some positions will involve managing or assisting with the daily technology operations for the large, global bank serving millions of customers. The company also is seeking a number of technology support positions. Additionally, employees will conduct research for

the bank with Syracuse University faculty in areas such as cyber security and information technology risk.

Candidates may apply for jobs online at <http://careers.jpmorganchase.com/career/careerhome>, by clicking on the “Experienced Opportunities” section, selecting “Search and Apply for Jobs” and entering keywords “JPM-SU Tech Center”.

Bank employees will work at the JPMorgan Chase Technology Center on-campus in Syracuse University’s Lyman Hall, which will formally open in the fall. The company expects to hire more employees to work at the Technology Center in the coming years.

S.U. students will have the opportunity to work side-by-side with the employees to gain real-world experience in these fields. The JPMorgan Chase-S.U. collaboration is emblematic of Syracuse University’s *Scholarship in Action* vision, which encourages multi-sector collaborations that simultaneously enrich student and faculty scholarship and education and address the critical issues facing the world.

JPMorgan Chase teamed up with Syracuse University in 2007 to create a one-of-a-kind educational experience, transforming the way technologists are trained in the classroom while bringing real business benefits to the bank. Unlike traditional university-industry relationships, every aspect of the collaboration involves JPMorgan Chase and S.U. representatives working side-by-side -- from new academic programs to groundbreaking research to technology development.

JPMorgan Chase & Co. (NYSE: JPM) is a leading global financial services firm with assets of \$2 trillion and operations in more than 60 countries.
