Whitman Room 003

Presentation: 2:00-3:00pm

*(Please note that this is an open guest lecture part of a Whitman Course)*

## Electronic Trading & Market Data

Hear from an SU alumnus about how:

- The flow of market data is translated into information used on the JPMC trading floor.
- Recent trends in technology and industry are accelerating the move toward electronic trading.
- Low latency market data used in algorithmic trading engines.

Ted Lambrinos

Global Head of Electronic  
Communication Networks,  
Trading Technology  
JPMorgan Chase & Co.
